Professional Summary

Computer Science undergraduate with hands-on experience in full-stack development (MERN), AI-powered application development, REST APIs, and authentication systems. Skilled in Java, JavaScript, React.js, Node.js, Express.js, MongoDB, SQL, Python, TypeScript, and AI API integration. Built and deployed AI applications using modern web technologies, with strong foundations in DSA, OOP, DBMS, OS, and Computer Networks.

Experience

Web Developer Intern **Jul 2025 – Oct 2025**
Bharat Economic Forum *Remote*

- Worked on web development requirements for ongoing projects and initiatives associated with the **Viksit Bharat Mission@2047**.
- Contributed to website development and reviewed web interfaces and functionality to identify inconsistencies and improve user experience.
- Analyzed project requirements and collaborated on implementing and refining web-based features.
- Tested website functionality, identified issues, and supported debugging and quality improvements across web components.
- Optimized SQL queries to improve database response time and reduce unnecessary load during high-traffic scenarios.

Projects

AI Debugger Assistant | *React.js, Node.js, Express.js, MongoDB, Groq AI, MCP, Firebase* GitHub Repo | 2026

- Built an AI-powered debugging assistant that autonomously inspects, analyzes, and fixes code errors using **Groq AI** and **MCP**-based tool calling.
- Implemented an autonomous debugging workflow with custom MCP tools for file listing, code search, file reading, command execution, log analysis, and automated code modification.
- Developed **REST APIs** with Node.js/Express.js, MongoDB/Mongoose data management, ZIP project upload & extraction, and AI-agent integration.
- Implemented **JWT authentication**, **Google OAuth 2.0** with Firebase, protected routes, token blacklisting, and debug-session history for secure application access.
- Built a **React 18 + Vite** frontend with Axios, React Context API, Firebase Authentication, and Markdown rendering for interactive AI debugging responses.

AI Mentor | *React.js, Gemini API, Tailwind CSS* Live Demo | 2025

- Developed an AI-powered mentoring platform using **React.js**, providing personalized learning and career guidance through a conversational, component-based UI.
- Integrated the **Gemini API** via client-side calls to generate real-time AI responses to user queries on learning paths and career goals.
- Built and styled multiple reusable React components with **Tailwind CSS**, implementing a fully responsive layout across screen sizes.

Technical Skills

Languages: Java, JavaScript, Python, TypeScript.

Frameworks/Libraries: React.js, Node.js, Express.js, Tailwind CSS.

AI & APIs: Groq AI, Gemini API, MCP, REST APIs.

Databases/Tools: MongoDB, SQL, Git, GitHub, VS Code.

Authentication: JWT, Firebase Authentication, Google OAuth 2.0.

Education

Rungta College of Engineering & Technology **Aug 2023 – May 2027**
B.Tech. in Computer Science & Engineering, CSVTU – CGPA: 8.32 *Bhilai, Chhattisgarh*

Rajendra College (Class XII) **2022**
Percentage: 77.8%

Bhagwat Vidyapeeth (Class X) **2020**
Percentage: 92.8%

Achievements

Finalist – Smart India Hackathon (SIH) 2025, for developing Mantrix, a career and education guidance platform.

2nd Position – "Break The Pattern" Hackathon, BIT Mesra.

3rd Position – Semester 4 Project Competition, Rungta College of Engineering & Technology.

Open Source Connect Global – Contributed to open-source projects, collaborating with global contributors on real-world codebases.

Champion Tier – Google Cloud Arcade 2025.

Solved **150+ problems** on LeetCode, strengthening Data Structures & Algorithms skills.

Certifications

Programming in Java – NPTEL, Elite + Gold, 92%.

MERN Full Stack Development – Coding Spoon.
